

Powerful Windows PC backup for businesses

Losing data can be costly. This makes it essential that you ensure your systems and data are backed up and protected in a way that is secure but still available.

That's where Macrium Reflect Workstation comes in.

Although its disk imaging technology might be advanced, it also makes backup and recovery simple and manageable. And, when used as part of a well-coordinated security and disaster recovery strategy, it can ensure that the risks that come from today's data-intensive world are effectively mitigated and minimized.

Most importantly, Macrium Workstation gives employees security. With each laptop and workstation running Macrium, the people that power your organization can focus on what matters most at work, knowing that everything they need and use is safe and recoverable.

"I've found it fantastic to be able to have a live backup running whilst the server is still operational. This is vital for the successful running of the systems. The software is incredible, Macrium have really out done themselves! Having this tool in my toolkit certainly makes my life a lot easier."

Fast

Minimize downtime

Secure

Protect your equipment

Efficient

Manage backups easily

Features

The benefits of Macrium Reflect are enabled by a range of powerful features.

Ransomware protection

Protect your backups with Macrium Image Guardian.

Changed Block Tracking

Up to 10x faster.

How to purchase

Macrium Reflect Workstation can be installed on a single standalone PC or used on the Macrium Site Manager platform for no extra charge; this enables the deployment of Macrium Reflect Workstation at scale and includes some powerful additional features.

MAL licenses can also be purchased as a volume licensing option on the Site Manager platform.

System requirements and compatibility

- Reflect will work on Win XP / Server 2K3 and later.
- Appropriate OS level service packs and hotfixes may be required for installation on some Windows versions.
- Some features unavailable on Win7 and earlier.
- Standalone install on Vista (Server 2K8) 64 bit requires specific attention.
- See Macrium Knowledge Base for details.

Note: Reflect Server licenses required for server installations
